AIR CONDITIONING

Mitsubishi Heavy Industries Air conditioners Australia, Pty. Ltd.

VOICE COMMAND CONTROL

Your MHI air conditioner can now be connected with any Alexa-enabled or Google Assistant voice control device. Now you can tweak, add and edit your voice commands allowing you to turn your air conditioner on or off, change the operation mode or set the temperature and many more just with your voice!

SMART DEVICE CONTROL

Turn your unit on, check the temperature in your room while you're out and about. Can't remember if you turned your air conditioner off? Now you can easily check and turn your unit off from your smart device anywhere, anytime!

SMART HOME INTEGRATION

Tap into a universe of IFTTT (If This Then That) recipes and turn your MHI air conditioner into a smart air conditioner. IFTTT app allows to easily connect your air conditioner to 3rd party applications, services and devices including Gmail, Calendars, Weather, smartwatches plus thousands more, giving your unit advanced, smart functionality.

Set your air conditioner to turn on when you get close to home.

Set your air conditioner to turn on or off depending on the weather outside.

Set your air conditioner to turn on from the moment you wake up.

PRODUCTS COMPATIBILITY

A compatible Wi-Fi adaptor is required to control your air conditioner via smart device or voice command technology. The Wi-Fi adaptor is sold separately and can be installed during the installation of your new MHI air conditioner or retrofitted to work with your existing MHI AC system. See below for product compatibility details.
